

Accessibility

KPMG is committed to providing a website that is accessible to the widest possible audience. This page describes the additional options that are available to help you view and navigate this web site. KPMG are proud to be a signatory of the Accessible Technology Charter and are members of the Technology Taskforce (part of the Business Disability Forum).

Browser

This web site supports most commonly-used browsers, but is likely to work best with Google Chrome. Please be aware that websites tend to also work better with certain versions of a browser, and that may not always include the latest version of the browser.

Screen resolution

The web site is designed for a minimum resolution of 1024 x 768. Some pages will may not fit into your browser window without the need to use the scrollbars.

Images

Graphics that are purely decorative in function have empty ALT attributes, to prevent them from displaying on screen readers. Where images contain important information, descriptive ALT attributes are provided.

Multimedia

You will need browser which supports HTML 5 or Adobe Flash Player (version 8 or above) to view the multimedia presentations or video clips on the site. Text alternatives are provided for all important multimedia content. You can download the latest version from the Adobe Flash Player site.

Navigation

All pages contain a link to the home page. The navigation system has been constructed in a consistent fashion to provide clear navigation pathways throughout the site.

PDFs

If you would like to use a screen reader to read PDF documents you can find out more at the Adobe Access website.

JavaScript

Although JavaScript is used throughout the site, site functions such as navigation will fully function for site visitors that do not have JavaScript enabled in the browser.

Further assistance
